## Project Planning Phase Project Planning (Milestones & Activity List)

| Date         | 30 October 2022                       |  |
|--------------|---------------------------------------|--|
| Team ID      | PNT2022TMID24396                      |  |
| Project Name | Smart Fashion Recommender Application |  |

## Remaining tasks (Milestones & Activities) to be completed

| Milestones                   | Activities                       | Description                            |
|------------------------------|----------------------------------|--|
| Project Development Phase    | Delivery of Sprint – 1,2,3,4     | To develop the code and submit         |
|                              |                                  | the developed code by testing it       |
| Setting up App environment   | Create IBM Cloud account         | Signup for an IBM Cloud                |
|                              |                                  | account                                |
|                              | Create flask project             | Getting started with Flask to          |
|                              |                                  | create project                         |
|                              | Install IBM Cloud CLI            | Install IBM Command Line               |
|                              |                                  | Interface                              |
|                              | Docker CLI Installation          | Installing Docker CLI on laptop        |
|                              | Create an account in sendgrid    | Create an account in sendgrid.         |
|                              |                                  | Use the service as email               |
|                              |                                  | integration to our application         |
|                              |                                  | for sending emails                     |
| Implementing web Application | Create UI to interact with       | Create UI                              |
|                              | Application                      | Registration page                      |
|                              |                                  | <ul> <li>Login page</li> </ul>         |
|                              |                                  | <ul> <li>View products page</li> </ul> |
|                              |                                  | Add products page                      |
|                              | Create IBM DB2 & connect with    | Create IBM DB2 service in IBM          |
|                              | python                           | Cloud and connect with python          |
|                              |                                  | code with DB                           |
| Integrating sendgrid service | Sendgrid integration with        | To send emails form the                |
|                              | python                           | application we need to                 |
|                              |                                  | integrate the Sendgrid service         |
| Developing a chatbot         | Building a chatbot and Integrate | Build the chatbot and Integrate        |
|                              | to application                   | it to the flask application            |
| Deployment of App in IBM     | Containerize the App             | Create a docker image of your          |
| Cloud                        |                                  | application and push it to the         |
|                              |                                  | IBM container registry                 |

| Upload image to IBM container | Upload the image to IBM       |
|-------------------------------|-------------------------------|
| registry                      | container registry            |
| Deploy in kubernetes cluster  | Once the image is uploaded to |
|                               | IBM Container registry deploy |
|                               | the image to IBM Kebernetes   |
|                               | cluster                       |

## Finished tasks (Milestones & Activities)

| Milestones              | Activities             | Description                     |
|-------------------------|------------------------|---------------------------------|
| Ideation Phase          | Literature Survey      | Literature survey on the        |
|                         |                        | selected project &              |
|                         |                        | information gathering           |
|                         | Empathy Map            | Prepare Empathy map to          |
|                         |                        | capture the user Panis &        |
|                         |                        | Gains, prepare list of          |
|                         |                        | problem statement               |
|                         | Ideation               | Organizing the brainstroming    |
|                         |                        | session and prioritise the top  |
|                         |                        | 3 ideas based on feasibility &  |
|                         |                        | Importance                      |
| Project Design Phase I  | Proposed Solution      | Prepare proposed solution       |
|                         |                        | document which includes         |
|                         |                        | novelty, feasibility of ideas,  |
|                         |                        | business model, social          |
|                         |                        | impact, Scalability of solution |
|                         | Problem Solution Fit   | Prepare problem solution fit    |
|                         |                        | document                        |
|                         | Solution Architecture  | Prepare solution architecture   |
|                         |                        | document                        |
| Project Design Phase II | Customer Journey       | Prepare customer journey        |
|                         |                        | map to understand the user      |
|                         |                        | interactions & experience       |
|                         |                        | with the application            |
|                         | Functional requirement | Prepare functional & non        |
|                         |                        | functional requirement          |
|                         |                        | document                        |

|                        | Data Flow Diagram          | Prepare Data Flow Diagram    |
|------------------------|----------------------------|------------------------------|
|                        |                            | and user stories             |
|                        | Technology architecture    | Draw the technology          |
|                        |                            | architecture diagram         |
| Project Planning Phase | Milestones & Activity list | Prepare milestones and       |
|                        |                            | activity list of the project |
|                        | Sprint Delivery Plan       | Prepare sprint delivery plan |
