Project Design Phase –I

Solution Architecture:

| Date	18th October 2022
Project Name	Project - SMART FASHION RECOMMENDER APPLICATION
Maximum Marks	2 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

Find the best tech solution to solve existing business problems.

Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.

Define features, development phases, and solution requirements. Provide specifications according to which the solution is defined, managed and delivered.
